GOLDFLAME HONEYSUCKLE

(Trademark)

A superlative variety; beautiful, hardy and versatile. The large flame-coral trumpets lined with gold, fragrant after nightfall, appear in immense, showy clusters the same year the plant is set out. Reaching its full glory of bloom in early summer, it nevertheless flowers abundantly from May until frost. Dark blue-green foliage, disease and pest free, is attractive in itself and makes a perfect background for the brilliance of the flowers.

Allowed to grow naturally, GOLDFLAME will climb a trellis or spread as a ground cover; if pruned it becomes a striking specimen shrub, while if planted in a row and sheared it gives a smashing effect as an everblooming hedge.

ROSES

NOTE: We are now offering both western-grown and southern-grown roses. When ordering please state which you prefer.

Rose growing is one of our specialties. We produce large quantities in wide assortment. With the exception of a few of the common climbers, all of our southern-grown roses are low budded on multiflora japonica, while our western-grown roses are low-budded on ragged-robin understocks. The roots of these understocks are fibrous and pliable and adapted to most types of soil. Our method of propagating produces symmetrical well balanced plants with short shanks suitable either for pot or garden culture. All of our roses are graded carefully according to the standards of the American Association of Nurseriesmen.

Look over this list and note the fine assortment offered.

TEA AND HYBRID TEA ROSES

FLORIBUNDA ROSES

This is a new classification that includes roses selected for their hardiness, ease of culture and for their mass color effect. In the group are found single, semi-double and double flowers, usually produced in large clusters. The Floribunda varieties are primarily intended for bedding, massing or for borders for which purpose they are far superior to annuals or herbaceous material.

NOVELTIES AND SPECIALTIES

From our long list of perennials we have selected the following outstanding varieties. Not all of these are new, but all are so meritorious that we wish to direct your special attention to them.

ASTERS, HARDY (Michaelmas Daisy)		Per10	Per100
Queen Mary. Probably the best Novi Belgi type introduced to date. Large flowers (2½ inches across) dark sky-blue and frilled. Especially desirable for cutting. 4' -----			
		1.20	10.00
Star of Wartburg (New) Beautiful early-flowering Aster. Flowers 2½ to 3 inches in diameter, dark lilac-blue in color, borne on stems about 1 foot high, and in great profusion. Under glass it can be brought into bloom during March and April --			
		1.80	15.00
BUDDLEIA (Butterfly Bush)			
Charming. (New) This is the nearest pink of all butterfly bushes. The bushes grow several feet high and are in bloom from June until frost. The flowers are a clear lavender-pink and are especially desirable for basket work because they blend well with light blue delphinium and other seasonable flowers. We highly recommend this buddleia.			
No. 1 field grown -----		2.90	25.00
Medium field grown -----		2.10	18.00
COREOPSIS			
Double Sunburst (New) Striking double flowers of golden-yellow and good size. Attractive in the border and because of their good keeping qualities are good for cut flowers. 24-30" -----			
		.95	8.00
DIANTHUS			
Knappi. The only yellow flowering dianthus. It bears clusters of small dainty yellow flowers. Desirable for the rock garden and thrives in dry sunny location -----			
		1.45	12.00
GYPSOPHILA (Baby's Breath)			
Repens Bodgeri (New) Grows to a height of about 18 inches, spreading habit. Flowers open white but turn to pink after a few days. Starts blooming about two weeks earlier than other double flowering strain and is in bloom nearly all summer. Good for cutting -----			
		1.40	12.00

NOVELTIES AND SPECIALTIES (Continued)

GYPSOPHILA (Continued)		Per10	Per100
Repens Rosy Veil. (New) Similar to Bodgeri but the flowers are distinctly pink upon opening. It starts blooming earlier than the tall varieties of double flowering Gypsophila and continues all summer -----		1.80	15.00
HELIANTHUS			
Multiflora fl. pl. This perennial deserves much wider recognition. The flowers resemble small double clear yellow dahias. It begins booming in early summer and continues until frost. Few perennials can withstand heat and drought as well as this one. Because the flowers are good for cutting it is especially valuable to florists as a source of summer flowers. -----		1.20	10.00
PHLOX			
Dixie (New) This is our own introduction. Dixie is especially adapted to southern states where other varieties of Phlox cannot be grown successfully. Shapely heads of orchid-pink flowers on tall strong stems -----		70.00 per 1000	.95 8.00
Lilian. Exquisite cameo-pink with faint blue tinge at base of petals, large heads and florets. Early and continuous bloomer -----		1.20	10.00
Morgenrood (Morning Glow) A new variety from Holland. Large flower heads, big florets, bright rose, eyes slightly deeper shade. 2½' -----		.95	8.00
PLUMBAGO (Leadwort)			
Larpentae. An old-fashioned flower which is returning to favor. Plumbago is a trailing plant covered with deep blue flowers nearly all summer and autumn. Especially desirable for rock gardens and borders -----		.85	7.00
SALVIA (Sage)			
Pitcheri. Superior to Azurea. More branching habit and larger deep gentian-blue flowers. Blooms in late summer. One of the showiest autumn flowers. Good for cutting -----		.95	8.00
TEUCRIUM (Germander)			
Chamaedrys. Glossy-green foliage somewhat resembling boxwood. Purple flowers and dwarf habit of growth. Makes an excellent substitute for dwarf boxwood hedges. Responds readily to shearing -----		.95	8.00
VIOLA ODORATA (Sweet Violet)			
Rosina (New) A gem for the rock garden and a delight to any plant lover. This tiny plant produces dainty, deliciously fragrant pink flowers in spring and again in the fall -----		.95	8.00
